

Encyclopedia Greyhawkania Index

The **Encyclopedia Greyhawkania Index** (EGI) is a fan-created index of (most) every official WORLD OF GREYHAWK source through 2001 and some additional sources through c.2008, giving page number citations by Topic, listing most every proper noun in the sourcebooks.

History and development

The EGI originally began as the creation of Jason Zavoda. It was a tremendous project, cataloguing every proper noun in the WORLD OF GREYHAWK sourcebooks—a similar project to Krista Siren's Gord's Greyhawk (<https://greyhawkonline.com/gordmain/>).^[1] project, indexing all the novels. Each entry showed the source material and what pages in the source material reference the listing in an *Encyclopædia Britannica* "location indexing" style.

Zavoda described his work as an index for a theoretical encyclopedia that does not exist, but was imagined to be something similar to the Savant-Sage's seven volume encyclopedia, the *Catalogue of the Land Flanaess*. The EGI is the *index* rather than the *encyclopedia* itself.

When the Living Greyhawk Gazetteer was published, it did not have an index—which was considered one of the few flaws of the book.^[1]^[2] However, Jason Zavoda independently indexed it, and that index was published in Living Greyhawk Journal #12, in June 2002.^[3]

Zavoda compiled his work through 2008 (with one addition for Ghosts

of Saltmarsh in 2019), and his work was continued and updated by Eric Johnson, Richard "Longetalos" Dilola, Jason "PupickDad" Jacobson, a French fan group, and numerous other fans over the years, even after his passing.

Though Zavoda passed away in 2021, his work continues to be useful and impactful, and forever changed the way fans are able to access out-of-print sources for their research.

EGI use on the *Great Library of Greyhawk*

On the *Great Library of Greyhawk* wiki hosted on GreyhawkOnline.com, the EGI takes the shape of the tables at the bottom of wiki articles. Each page populates the pertinent sources and references about a topic, using Template:Index.

In spring of 2020, Zavoda worked with GreyhawkOnline to work out the best way to tabulate EGI and have results from the EGI display on articles of the *Great Library* wiki.

For more information about the EGI, its history, and how it came to be in its current form, visit the EGI page (<https://greyhawkonline.com/enc>

[yclopediagreghawkania/](#)). [🔗](#) on greyhawkonline.com as well as to see the original TXT file, and download an XLS spreadsheet of the current EGI used on GHO.

Source code abbreviations

Though they are not in general use by the majority of fans, the original EGI used product code abbreviations in place of titles. The *Great Library of Greyhawk* wiki uses titles, but below are the indexed sources with their associated abbreviations used in the original EGI.

Publication code translations

Abbreviation	Source name
A1	<u>Slave Pits of the Undercity</u>
A1-4	<u>Scourge of the Slave Lords</u>
A2	<u>Secret of the Slavers Stockade</u>
A3	<u>Assault on the Aerie of the Slave Lords</u>
A4	<u>In the Dungeons of the Slave Lords</u>
AOE	<u>Artifact of Evil</u>

ATG	<u>Against the Giants</u> - The Liberation of Geoff - Adventure
BC	<u>Bigby's Curse</u>
C1	<u>The Hidden Shrine of Tamoachan</u>
C2	<u>Ghost Tower of Inverness</u>
